

Designed with a spring-loaded ergonomic handle and ultra-sharp blades, the CSP tools are perfect for slitting open 5 & 6 mm DAC cable, 5 mm Prysmian Fassadenkabel, as well as RPX cable to access the fibers inside without damaging them. These cable slitting pliers also feature the following:

- Ultra-sharp blade slits through cable jackets with ease
- Blade is fixed to prevent damage to the internal fibers, with no adjustments needed
- Guide blocks hold the cable in place for accurate and precise cable slitting
- Spring-loaded ergonomic handles provide a comfortable grip and reduce hand fatigue
- Set screws on blade block makes it quick and easy to replace the blade

Replacements Blades Available for All Blocks: **CSP-10RB** (10 Pack)
